Profile

Fourth year Computing student at TU Dublin, graduating in 2027, with practical experience building and deploying web applications, working with databases and completing networking labs. Seeking an internship or graduate opportunity in software development, IT infrastructure or cybersecurity.

Education

BSc Honours in Computing | TU860 | Level 8 2023 - Present

Technological University Dublin, Blanchardstown | Expected graduation May 2027

Relevant study: data structures and algorithms, software engineering and testing, operating systems, parallel and distributed computing, routing and switching, and web application development.

Technical Skills

Languages: Java, JavaScript, HTML, CSS, SQL; working knowledge of Python, PHP, C and C#
Web development: Next.js, React, Node.js, Django, MUI, Bootstrap, REST APIs
Databases: MongoDB, MySQL, SQLite
Tools and deployment: Git, GitHub, GitHub Actions, Vercel, Railway, PythonAnywhere
Systems and networking: Linux terminal basics, Cisco IOS, Packet Tracer, routing and switching

Selected Projects

RoadGuardian | Motorcycle Safety Web Application [GitHub]

Next.js, React, MongoDB, NextAuth, Ably, Mapbox GL JS, Vercel

- Worked in a three-person team to build a motorcycle support application with emergency assistance, maintenance records, document management and community messaging.
- Implemented authentication and integrated live location maps, real-time messaging and emergency status updates; deployed the application on Vercel.

Assetra | School Inventory Management System [GitHub]

Python, Django, SQLite, GitHub Actions, Railway

- Built role-based workflows for students, staff and managers, including equipment requests and returns, approvals, stock management, statistics and CSV export.
- Wrote five automated tests, configured GitHub Actions and deployed the application on Railway.

The Plug | E-commerce Web Application

PHP, MySQL, HTML, CSS

- Developed a coursework e-commerce application with user authentication, product browsing, a shopping cart and checkout; used PHP and MySQL for server-side functionality.

Experience

HPC Cluster Deployment Volunteer | TU Dublin Nexus Lab October 2026

- University volunteer role supporting a high-performance computing cluster deployment.

Self-employed Delivery Driver | GSwift Logistics October 2025 - Present

- Carry out delivery routes of approximately 80-130 stops, managing time and working independently.

Certificates

PHP Level 3 | SymfonyCasts
